

Graduate Trainee Vacancies

- ◆ **Site Management**
- ◆ **Commercial**

Baxall Construction are a leading main contractor providing new build, refurbishment and fit-out services across London and the South East. With a sound reputation for high-quality delivery, we have developed a strong presence in the education, residential and commercial markets for public and private sector clients alike.

We currently have openings for two Graduate Trainees within our organisation:

Site Management - based primarily on site, this traineeship will introduce the key elements and responsibilities of managing a construction project at operational level. The candidate will be supervised and mentored by a Contract Manager and will undertake further industry training.

Commercial - based at Head Office, the role will encompass working within each of the divisions of Procurement, Quantity Surveying and Estimating. This will provide the successful candidate with broad experience and understanding of the commercial aspects of the construction industry.

These positions are open to those nearing the end of their courses or who have recently graduated

Upon successful completion of a 6 month trial period, it is intended to offer a permanent role and further specialist training within in our organisation.

All interested parties are invited to contact Mrs Sharon Smith at Head Office to request a full job description, person specification and application form.

Baxall Construction Limited are an equal opportunities employer and positively welcome applications from all suitably qualified and eligible candidates from all parts of the community.
